Dear Belden:-

The Kerra is announced at Gibraltar yesterday. Genoa I suppose today!! - It is simply stupid & Raueh & I have sent that Bill to you. I was in the store only a few days after my return and told them to send ~~that~~ bill to me. I will see them about the Key.

Sorry about that Dr. Bushnell - Even inferior doctors can fail to follow prescriptions. Please make the best terms you can under the circumstances, and send me the bill and I will send my check for it at once. And you need never say anything about it to anybody. Do not delay, as I want to get everything settled up before I go to the Islands. I have been in constant correspondence about Dr. M. H. biz. since

I came home, and no Stenographer
either. I sent the doc: to Senate
and House - I see the morning
papers announce that going to
the House - There was one ordered
to go to the President. I could not
get time to make a copy for his
Excellency - If you choose to have
it done, Dunlap must have the
original as it is not in the
minutes he gave me, and which
I will return to you at once,
and you can give them to Mrs Thayer
& if you want them copied in a proper
book, from the beginning, get the
book, and pay for the work & let
me have the bill - It is already
a shame that our records are
in ^{loose} fragments only, so far as
we have them at all - Now do not

send to me to buy the record book
to pay for my originality of suggestions
Glad you got \$5 for Congregationalist
I do not get that paper now a days
directly and hence I must remain
benighted - Young, in Guardian of Truth,
Mudge in Irish Herald, Cushing in
Independent all did well - Davis
in Intelligencer is putting it into two
articles I see

I did not know Dunlap the Royal
Siamese was still at Clifton. I
want the Ms. or proof or something
of that "Dunlap Symposium" at
the earliest date possible, to
see if I cannot work it into the
Review or large selections from
it - Wonder if it would be fair to
ask Rodwell or Dunlap to
pick out about 2500 words of
material from it - if not let them

give me advance copy or proof
or hen tracks of some sort that I
can make it up.

If Hamlin and Wherry will
allow me, I think I will
print both their papers as
pamphlets for free distri-
bution by the thousand - possibly,
Chambers too on Criticism Turkey.
The SMN must hit things, hard.

I have not yet taken ~~the~~ "your Skins"
to the Book sellers. I see them daily.
I mean "your Skins", but then it is such
a delightful reminder of my martyr
- like devotion to what is beneath your
skin, that I am loathe to dispense
with it - I lost time in having to go to
keep Speakal Corner Stone laying yesterday
& it took my whole evening besides -
Good by old fellow. get well! Yours Gladly
i. z. J. P.
